

Although in my local town XM Radio does not offer this amazing service, I use it a lot when I travel out of town... I go usually to Houston and San Antonio very often and this service is just very helpfull... for traveling arrangements, planning and in the trip by itself. I hope you won't allow powerfull people to stop the great services XM is providing just because is agains their own interest and to the user that I supose at the end are us who counts.
